

Supply Chain Security Charter

April 2017

Problem Statement	
<p>The work completed by the founding members of the SCS steering committee generated a tremendous amount of value for Rx-360 member companies. This may prove to be difficult to sustain with a voluntary workforce and the increasing cost pressures put on their member companies.</p> <p>A strategic framework is needed to efficiently deliver the foundational value of collaboratively resolving common supply chain security issues while ensuring to add value through addressing emerging issues and enhancing effectiveness of current and future regulations on a global level.</p>	
Goals	
<ol style="list-style-type: none"> 1. Attract and maintain a diverse steering committee and respective working groups of global supply chain subject matter experts (SMEs) to address evolving issues. 2. Foster engagement in sharing developments in best demonstrated practices and industry developments with other current and potential future Rx-360 work groups. 3. Expand web-based knowledge management and e-learning tools accessible via www.rx-360.org to enable increased collaboration and to make readily available to Rx-360 membership and other interested parties. 	
Key Deliverables and Timing	Estimated Completion Date
Draft strategic framework for steering committee feedback	April 2017
Confirm steering committee role/responsibilities regional	Q2 2017
Recruit regional steering committee members and volunteers	Q2 2017
Face-to-face steering committee meeting <ul style="list-style-type: none"> ▪ Ratify strategic framework and deployment timeline ▪ Perform needs analysis for knowledge management and e-learning tools ▪ Evaluate partnership opportunities with trade associations 	Q3 2017
Identify, engage and partner with trade organizations to advance supply chain security issues	Q3 2017
Monthly steering committee conference calls	Ongoing
Success Measures	Estimated Measure Date
Increased global membership due to attention to emerging global issues	Q4 2017
Increased number of collaborations due to regional presence and improved knowledge management tools	Q4 2017
