

Asahi KASEI

BIOPROCESS

Reduce Audit Burden

When you purchase Asahi Kasei Bioprocess products, audits of manufacturing sites may be required to comply with regulations. But conducting an audit may be disruptive to daily operations and delayed due to scheduling conflicts. Asahi Kasei Bioprocess is proud to partner with Rx-360 to help reduce audit burden. Free up resources and qualify sites immediately by licensing Rx-360 audit document packages.

Pricing

Rx-360 Member	Rx-360 Non Member
\$2,500/package	\$5,000/package

Benefits

-  Save money by using high-quality, budget-friendly work that is already done.
-  Save time and effort by avoiding redundancy of time-consuming tasks.
-  Maintain operational continuity by replacing an onsite audit with an audit document package.
-  Reduce travel by relying on detailed narrative audit reports that describe the site of interest.
-  Trust in an industry-approved, unbiased third party for supplier qualification.

4 Steps to Qualifying Supplier Sites Using Rx-360 Audit Document Packages

- 1. Go to “License an Audit Report” at Rx-360.org:** Type the name of your supplier/s of interest in the search function box. Complete and submit the web form to request the report/s at any time. 
- 2. Complete the required paperwork:** Rx-360 will guide you through the completion of the licensing and confidentiality agreements.
- 3. Submit payment:** The Rx-360 Finance team will guide you through payment type and fulfillment options.
- 4. Use the audit document package you chose to qualify the manufacturing site.**

Rx-360 is an international nonprofit consortium that unites the pharmaceutical industry in ensuring quality and security across the supply chain. Rx-360 membership offers a host of benefits, beyond licensing discounts.
