Schreiner's development of a major security innovation was sparked by market needs discussed in an Rx-360 working group.

Christian Liebl
Director of Business Development
Schreiner MediPharm

MISSION

Our mission is to protect patient safety by sharing information and developing processes related to the integrity of the healthcare supply chain and the quality of its materials.

I'd love for all of our audits to go through Rx-360.

John Litz
Business Development Manager
ILC Dover

ASIA-PACIFIC ECONOMIC COOPERATION PILOT CENTER OF EXCELLENCE

Rx-360 is a Pilot Center of Excellence (CoE) for the APEC Regulatory Harmonization Steering Committee. The pilot program focuses on the Global Medical Product Supply Chain Integrity Priority Work Area Roadmap. Rx-360 - a long-established pillar of quality assurance in the pharmaceutical industry - helps drive APEC's mission.

Rx-360 hosts and provides learning opportunities and resources as part of our commitment to our partnership with APEC.

Asia-Pacific Economic Cooperation

PUBLICATIONS & COMMUNICATIONS

Rx-360 circulates its Patient Safety Digest weekly; Patient Safety Newsletter quarterly; Patient Safety Blog periodically; and case studies, survey results, and other types of publications intermittently.

In addition, Rx-360 working group facilitators initiate ad-hoc communications about emergent pharmaceutical industry supply chain issues.

THE JOINT AUDIT PROGRAM[®]

Joint Audit Program[®]

Reduce your audit burden by utilizing Rx-360's unique joint audit model, which allows industry entities to partner together while preserving confidentiality for all stakeholders.

You can customize your Rx-360 audit and even choose a sole sponsorship option, if that is what best serves your needs.

Offload CAPA management to Rx-360. We will handle your audit all the way through closure of the last CAPA.

Gain access to our inventory of previously conducted audit reports, so that you can perform instant quality checks without waiting in line to initiate a new audit or funding travel.

As an Rx-360 consortium member, you benefit from using our credit program by recouping audit expenses through credits that can be applied to audit report licensing and new audit scheduling costs.

CONFIDENTIALITY PLEDGE

Rx-360 protects your confidentiality. Our collected data is never sold, and it is never shared without your signed permission. For example, if you are or become a member or customer, we may request your signed permission to publish case studies that demonstrate both your operation's commitment to quality and the value of Rx-360.

For Joint Audit Program participants: We ensure your proprietary information is protected by confidentiality agreements for all parties involved. During this process, our team is dedicated to transparently explaining our program operations and any confidentiality-related factors involved with participating.

ORIGIN

Rx-360 was founded in 2009 by a consortium of pharmaceutical industry professionals who were especially dedicated patient safety advocates. They were driven to do all they could to prevent another crisis, like the heparin adulteration of 2008 that caused the deaths of 81 people and injuries for hundreds more.

People in this group have devoted their lives to this cause. It's work – yes – but it's a passion, too.

Jennifer Stone
Senior Vice President of Quality
PTC Therapeutics

Uniting pharmaceutical industry professionals from around the globe
