

auditsPlus®

A Members-Only Benefit of the
Rx-360 Joint Audit Program®

Rx-360 is a non-profit, member-driven consortium with a mission based in pharmaceutical supply chain integrity, material quality, and patient safety. As part of the consortium, Rx-360 offers a unique Joint Audit Program® that is open to the entire pharmaceutical industry but has significant advantages and discounts for Rx-360 members.

One of those great advantages is access to our best-in-class auditsPlus® platform. This controlled platform is only open to members and allows you to track all of your Rx-360 audit activity.

auditsPlus® includes:

- Viewing lists of upcoming audits and selecting audits to join as a co-sponsor
- Reviewing and ordering audit reports from our license library.
- Accessing your company-specific dashboard, which shows your Rx-360 audit activity and status updates.

All audit documents are downloadable from the platform, which saves you time and money, and allows you greater bandwidth to meet your internal quality objectives. For information on auditsPlus®, the Rx-360 Joint Audit Program®, or membership, please contact us at info@rx-360.org.
